# INSULATION INFORMATION

## CUSTOM BUILT STRUCTURES

**Closed Cell Spray Foam Insulation**

This type of insulation is sprayed directly onto the metal panels and expands to fill any gaps or voids. It provides excellent thermal insulation and can help prevent air infiltration. Offered in 2" or 1". Add 5% surcharge if over 3 hours from Mt Airy, NC. Surcharge is taxed but not commissionable. 13-ft & taller require a lift. No discounts.

**Double Bubble Moisture Barrier**

This type of insulation is a moisture barrier made up of polyethylene air bubbles with a layer of metalized film backing. It is designed to prevent moisture from penetrating the building and can help regulate temperature.

**2" Fiberglass Insulation**

This is a type of blanket insulation that is made from fiberglass. It is installed between the metal panels and provides good thermal insulation.

**Therma-Guard Moisture Barrier**

This is a type of rigid board that is like insulation in that it is made from fiberglass or foam plastics like polystyrene. It is installed between the metal panels and provides excellent thermal insulation.

### Insulation Pricing

Closed Cell 2" Spray Foam Insulation R-value = 14	\$3.25 per sq.ft.
Closed Cell 1" Spray Foam Insulation R-value = 7	\$2.25 per sq.ft.
2" Fiberglass Insulation R-value = 6	\$2.25 per sq.ft.
Double Bubble Moisture Barrier No R-value	\$1.75 per sq.ft.
Therma-Guard Moisture Barrier No R-value	\$2 per ft.
House Wrap Moisture Barrier No R-value	\$1.25 per ft.

**House Wrap Moisture Barrier**

This type of insulation is typically used as a weather barrier and is installed over the metal panels. It helps prevent air infiltration and can help regulate temperature.
